Committee Membership

- Matthew C. Shaw, Ball State University, Chair, mcshaw2@bsu.edu
- Arthur W. Hafner, Ball State University, Board Liaison,
- Collette Mak, Notre Dame University
- Elaine Nelson, Ball State University
- Holli Moseman, Indiana State University
- Judy Tribble, Saint Mary-of-the-Woods College
- Kate Sherrill, Ivy Tech Community College of Indiana
- Kelley Griffith, Marian University
- Paul Bracke, Purdue University
- Rita Rogers, Indiana University
- Tina Baich, IUPUI Indianapolis

RAC Charge
[From ALI Web site] Examine the consortial and technical models for creating a virtual or physical union catalog on which patron initiated lending and delivery would be based. Identify the policies that would need attention for consortial support of such services, including net lender reimbursement, load balancing, walk-in support of library users, patron loan rules, delivery systems, etc. Identify implications for other resource sharing programs, including statewide impact. Provide an estimated budget.

RSC Meetings
- The ALI RSC met February 18, 2010 and April 29, 2010
- Highlights of the 18 February Meeting:
  o The RSC reviewed the Committee’s charge and proposed some ideas for moving ahead, including the development of a resource sharing assessment survey for ALI member libraries.
- Highlights of the 29 April Meeting:
  o The RSC reassessed current work and discussed emergent priorities for the improvement of resource sharing in Indiana.

Major Objectives Established (Recommended Goals for the RAC in the Academic Year 2010-2011)
- Complete ALI Resource Sharing Assessment Survey to be distributed to Interlibrary Loan Departments of ALI Member Libraries.
- Increase installation and use of Odyssey stand alone for all ALI libraries without ILLiad.
- Increase statewide participation in 5-day delivery through INFOExpress.
- Increase statewide contribution of holdings records to OCLC. Expand discussion of statewide union catalog.
- Discover ways to leverage the discovery power of Google Book Search and other mass digitization projects through localized workflow.
- Develop a working model for the implementation of direct borrowing and end-user delivery.
